CULTURAL COMPETENCY AWARD OF EXCELLENCE

Irma Obregon, Clinical Therapist I, Mesa Community Counseling:

"As an intern at Mesa Clinic, I am extremely grateful for clinician Irma Obregon for her dedication to educate me about multicultural awareness specific to the Latino Culture. In interaction with Irma she recognizes the importance of addressing culture-specific issues that others who were not culturally competent wouldn't have noticed. Irma goes above and beyond in not only addressing culture-specific needs of her clients, but also assists others in becoming aware of the impact that culture has on their client's lives. Irma always takes time out of her busy schedule to assist in making sure I am meet the culture-specific needs of my clients. For example, Irma has offered to translate a letter into Spanish language for me. She did not simply take my letter and translate it herself, she sat down with me and went through the letter line by line to make sure I communicated effectively to the client and

addressed their specific needs. Irma also serves as an interpreter to assist in acquiring information from a client who was Spanish speaking only. She assisted me in conceptualizing this case and taking culture related issues into consideration, which in turn allowed me to build a foundational rapport and understand my client better. CONGRATULATIONS, IRMA!
